

# About Us

MYMEDITRIP business philosophy is strongly based on the belief that health and wellness are of paramount importance and can never be compromised. We focus on facilitating quality health-care to directly improve lives and wellness. Our team believes in culture of delivering the very best and the organization has made a concerted effort towards providing the same to its valued patrons. Therefore, each and every activity is undertaken with a complete commitment to ensure sheer delight of our customers in the real sense along with a lifetime experience for them.

## Why Mymeditrip

We understand the anxiety and concerns of patients seeking healthcare abroad. To ensure that you receive the best in treatment and surgery we have established professional relationships with key hospitals and proficient doctors. Most of these doctors have received professional training abroad and widely acclaimed for their medical acumen. Our experience and relationship with leading healthcare institutions ensure value-for-money without any compromise in quality, thus taking care of your medical treatment at a fraction of what it would cost in your country.

## Why India

For long promoted for its cultural and scenic beauty, India is now being put up on international map as a heaven for those seeking quality and affordable healthcare. The cost of healthcare is becoming prohibitively high in most American and European countries. Due to this, many nationals of these countries are seeking medical treatment in India and other Asian countries. Today, India has become a hottest medical tourism destination for the people around the globe. . India today has some of the most modern hospitals and highly qualified doctors. The most common treatments for which India is gaining popularity are heart surgery, knee and hip transplant, cosmetic surgery and dental care.
